

Declaration of conformity

We hereby declare that all products we deliver to Condi Aps

- 1) Are all suitable for use in direct connection with foods, within the regulations as described by the European parliament & the council in **Regulation 1935/2004** ad subsequent changes, further complying with **10/2011**
- 2) Are produced in accordance with the regulations described in COMMISSION **REGULATION (EC) No. 2023/2006** of December 22nd 2006 on good manufacturing practice for materials and articles intended to come into contact with food
- 3) That all the products listed are suitable for use with **any type of food, it be fatty foods, acid foods or foods containing alcohol**. Should this for any of the individual product not be the case we shall inform Condi ApS specifically about the limitations for for use of the products in a separate document.
- 4) That all products made of any type of plastic materials can be used as a minimum within the temperature range of +5 to +100 degrees Celcius for a minimum of 5 minutes, and all metal products as minimum can be used up to a temperature of 220 degrees Celcius for a minimum of 10 minutes if the item is not intended for baking purposes. If the item is intended for baking purposes there's no time limit for the usage of the product at up to 220 degrees.
- 5) Where applicable, appropriate **migration tests** have been carried out. No results have scored above any EU-limits.
- 6) **Note:** excluded from the statements above are any products on the list where food contact is obviously not intended.
